

Oliver Pickleball and Tennis Court improvement project

We believe Oliver Community Park is the jewel of recreation facilities in the Okanagan. We need your help to build the Oliver Community Park into a premier outdoor racquet sport destination in British Columbia.

Oliver's tennis courts are a huge benefit to our little town, but they are falling into disrepair and are too small for the number of players who want to play tennis and pickleball. Enhancements to our park will further recreational opportunities for all community members. They will also attract visitors to the area, some of whom may decide to call Oliver their home.

To keep the courts functioning well for decades to come and to meet the growing need for more racquet sport playing space, we plan in 2021 to:

Investing in recreational infrastructure will make our town recreationally, physically, socially and economically more vibrant. Specifically, enhancements will allow:

- Increased pickleball and tennis court time to public users and club members
- Increased facility capacity for recreation programming, tournaments and special events
- Increased number of citizens engaged in healthy activities
- Increased number of residents directly engaged in creating positive change through infrastructure development
- Increased collaboration and cooperation between Tennis and Pickleball Clubs

Our goal is to raise a significant portion of the estimated \$120,000 cost of the project. It will take about eight weeks to construct and we plan to build as early as 2021.

Sponsor Signage Opportunity

To thank sponsors for supporting improvements to our town's racquet sport courts, we are offering the opportunity to showcase your corporate logo on our court fencing until the project is complete in late fall, 2021.
